A newly decked bridge on Corridor 2

09/28/07

This month's club meeting will be on Monday, October 15th. Please note that this is due to the Columbus Day Holiday. The meeting will be held at the Andover Elementary/Middle School at 7:00 p.m. in the Science room. Hope to see you there.

As you can see in the above photos, we have been busy with trail work. This project was re-decking of a bridge over the Roy Ford Rd. on the corridor 2 rail bed trail. We used top grade material, so this will be around for many years to come. Great Job Everyone. The North end of Corridor 2 has grown in quite a bit with brush and overhanging limbs. There are plans to get this cleared this fall. There are also some other bridge projects scheduled for the season. If you are interested in lending a hand with trail work, please contact trail master Greg Miller at (603)934-2255. All help is appreciated.

You should find your membership form printed in this month's mailing. Please fill it out and return to Secretary Lisa Meier by November 15th. This will allow her to get everyone their club cards back before snowfall and will also allow you to get the NHSA SnoTraveler delivered to your home if you wish. You can also access a club membership form on our website.

At our last club meeting we discussed the need to reduce some of our operating costs. One idea is to discontinue this publication. With the cost of postage and printing increasing, it could actually save us approx. \$800 a year. We could use other avenues to get our club information to its members. We have the NHSA SnoTraveler and the Andover Beacon that allow us to submit articles on a monthly basis. These methods have little or no cost to the club members. Another way to stay in touch with club activities is our website that can be found at: andoversnowmobileclub.com This website can provide trail condition, club activities and contact information. I would like to thank everyone that contributed to this newsletter and look forward to your support in the future.

You will also find a club activity sheet printed on the back of this month's newsletter as a reference guide for the upcoming season.

Have a great snowmobile season, be safe and we will see you on the trails.
